

FLAGG-AIR™ 340HT AERATORS

WWW.FLAGG-AIR.COM

2-YEAR WARRANTY

The Flagg-Air™ 340HT Septic Aerator is a dependable shaft-style aerator providing optimal aeration.

The higher CFM air flow and low RPM (1750) of the Flagg-Air provides optimal aeration for your tank.

Features

- Low rpm, high torque fully enclosed continuous duty motor
- Protected motor cover with handle & cord storage
- High quality stainless steel shaft
- High quality sealed bearings
- Corrosion resistant bronze counter shaft
- Sealed end plates
- Totally enclosed non-ventilated continuous duty motor
- Double sealed end cap to prevent water back-up from entering interior of motor

Models

340HT-J

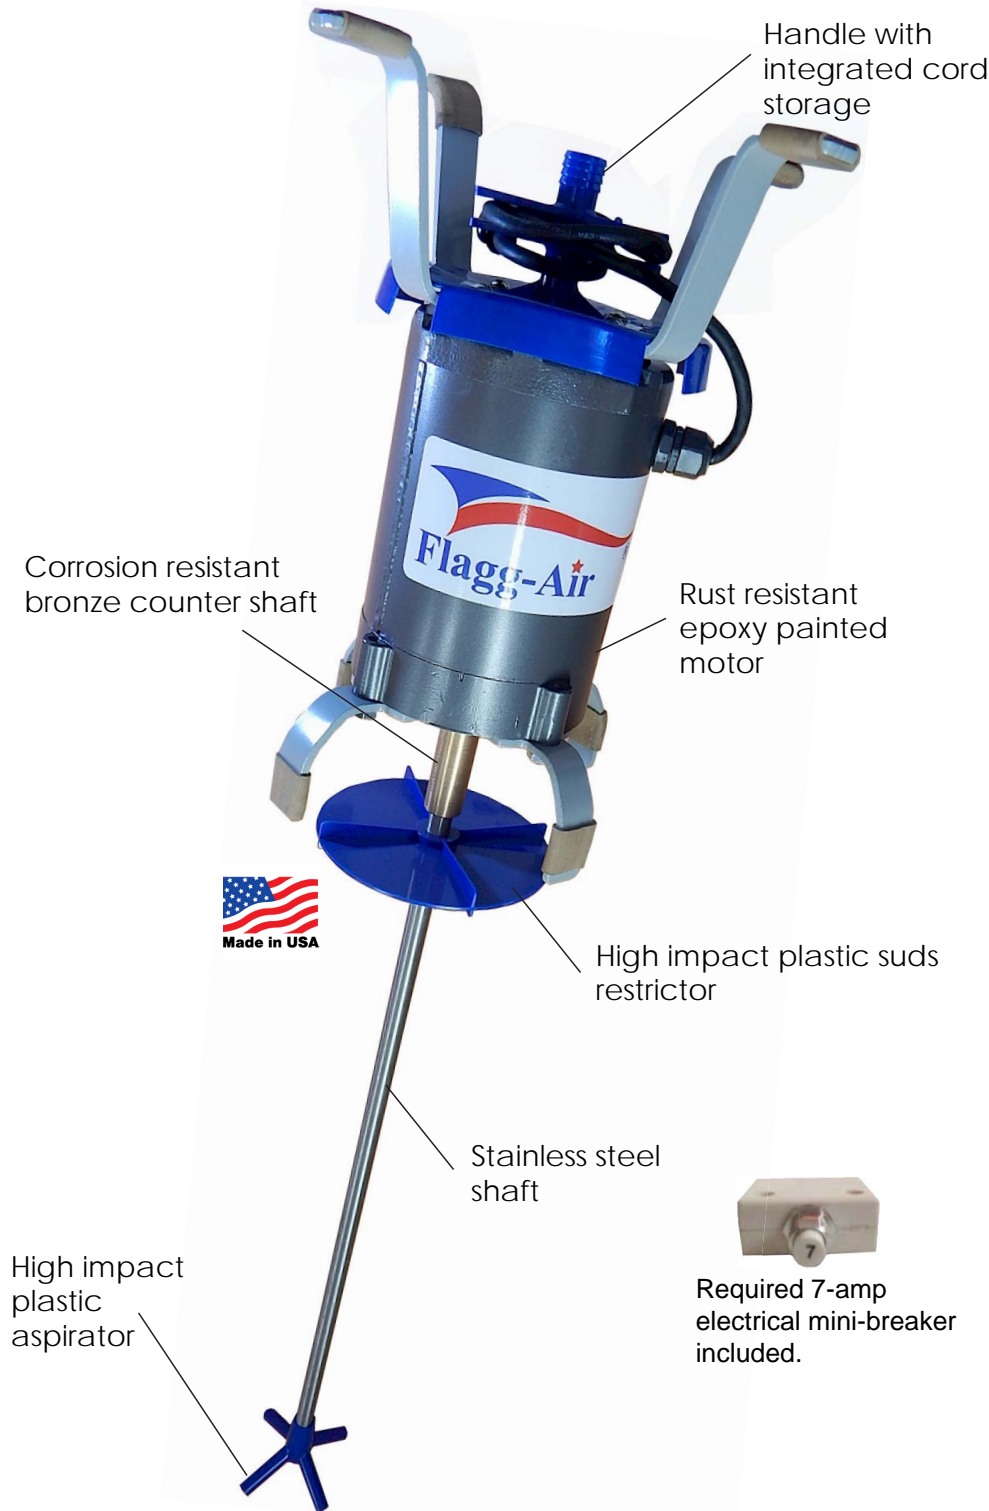

Alternative compatible replacement for the Jet* Aerator.

12-inch diameter top brackets fits 10-inch diameter tank riser opening.

340HT-N

Alternative compatible replacement for the Norweco Singular* Aerator.

15-inch diameter top brackets fits 12-inch diameter tank riser opening.

Required 7-amp electrical mini-breaker included.

The Flagg-Air 340HT Aerator has been independently tested for performance in original manufacturer's tanks and proven to meet or exceed the oxygen transfer rates of original manufacturer's aerator units.
